# Supplying Researchers and Manufacturers with Infectious Disease Antibodies and Antigens

Since 1985

**MONOTOPE™ ..... 4**

Mouse Monoclonal Antibodies

**RECOMBINANT ANTIGENS ..... 14**

**COMPANION REAGENTS ..... 14**

**MabyRab™ ..... 15**

Rabbit Monoclonal Antibodies

**OMNITOPE™ ..... 16**

Polyclonal Antibodies

**Ordering Information..... 18**

**Distributors..... 19**

# .....ViroStat

**Founded in 1985 by  
Dr. Douglas McAllister,**

**ViroStat manufactures and supplies infectious disease antibody tools to researchers and manufacturers in the areas of virology, bacteriology and parasitology.**

Applications for the antibodies include detection of respiratory agents, STD agents, gastrointestinal agents/toxins and food borne pathogens.

The company offers more than 500 infectious disease reagents including their MONOTOPE™ monoclonal antibodies, OMNITOPE™ polyclonal antibodies, MabyRab™ rabbit monoclonal antibodies, and numerous recombinant antigens. Many of these antibodies are used by manufacturers of rapid, point of care tests currently made and sold in the United States.

Specialties include high affinity antibodies to Flu A, Flu B, RSV & H. pylori, as well as antibodies to food-borne pathogens and toxins.

**Because ViroStat is the primary manufacturer of these antibodies, we have the knowledge and experience to offer excellent customer service and technical support to your laboratory staff on any scale from 100 ug to 10 grams.**

we are the primary manufacturer of **83%** of our products
